WEDDINGS 2019

About Us...

As mum & daughter, we have over a decade of experience photographing weddings together.

We believe that your wedding photography should be an enjoyable, stress free experience that creates lasting memories of your day.

We love to get to know our couples along with their friends & family. We don't just photograph your wedding, we're there to lend a hand on the day. We've fastened shoes & dresses, supplied tissues and many hugs, entertained the children and all sorts.

Our aim is to make your whole photography experience as enjoyable as possible, to blend in to your day, not take over it. We work with you both to get the results you're looking for. A little camera shy? Don't worry about it, we'll help you feel relaxed...A complete show off? Great! Let's plan something fabulous!

We have packages that are flexible and designed to suit your needs & budget; along with flexible payment options to help you spread the cost.

CHOOSING YOUR PACKAGE:

To choose the right package for you, start by thinking how much of your day you would like photographing. Do you just want the ceremony and a few guest snaps? Would you prefer to capture the whole day? Or something in between?

Then consider if you would prefer an album, usb or both. All our packages are completely flexible, we can tailor them to suit you.
